

High-Capacity Transport Platform

Accessing Heights Up to 65 Feet

MOTORSPORTS • FESTIVALS • SPORTING EVENTS

Deliver accessibility at heights other lifts can't reach. Designed for heavy loads, fast installs, and dependable performance.

- Max height: Up to 65 ft
- Multiple landing stops capability
- Lift speed: 40–80 ft/min
- Capacity: 1,600 lbs
- Platform size: 78" x 55"
- Base footprint: 7' x 7'
- Power Options: 220V single phase / 208V three phase

Key Applications:

- Freight & cargo transport
- Elevated viewing platforms
- Skyboxes and VIP decks
- Government ceremonies
- Outdoor grandstands

What's Included

- Pre-event site planning and coordination
- Delivery, installation, and breakdown
- On-site ADA-certified technician support

Fully ADA-Compliant

Built to meet event codes and safety requirements.

Trained ADA Lift Rentals techs install and remain on-site.

Nationwide Coverage From Sports Venues to National Ceremonies—Ready Anywhere

Why Choose The Transport Platform

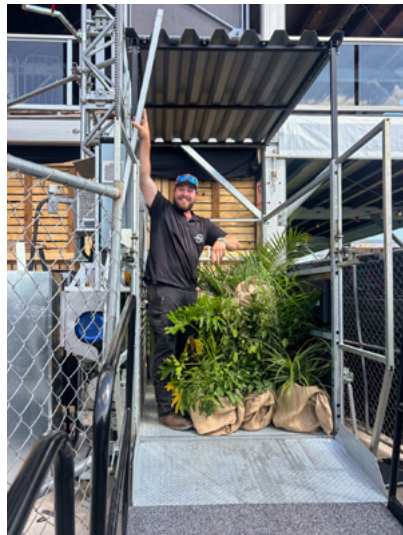

- Reach heights no other portable ADA lift can
- Ideal for temporary structures requiring access up to 65'
- High weight capacity
- Carries passengers and equipment up to 1,600 lbs
- Engineered for events
- Compact base fits tight spaces
- Safe, reliable, and compliant
- Fast setup and removal
- Handled entirely by ADA Lift Rentals' trained technicians

Perfect for High-Stakes Events

Deploy this system for major events like:

- NFL games and fan zones
- PGA tournaments and VIP decks
- NASCAR races and viewing towers
- Government ceremonies
- Large-scale festivals

The Transport Platform handles more than guests—moving equipment, catering, décor, vendor supplies, and even supporting EMS teams with space for a gurney.
